University of Minnesota - Duluth, Duluth Minnesota | May 14 - May 15, 2019

WHEN
May 14, 2019
May 15, 2019

WHERE
UMD
Duluth, MN

COST
Early Bird - $85
until February 28th
Regular - $100
after March 1st
At the Door - $125
after May 15th

WHO SHOULD ATTEND
Red Cross Volunteers, Healthcare Systems, Public / Tribal Health, Emergency Management, Elected Officials, School Leadership, EMS, Tribal Council Members, and anyone interested in the evolving challenges faced by the emergency preparedness, management and response community.

Every year disasters of all kinds affect businesses and families placing stress upon the community response framework. From fires to floods and everything in-between, the effectiveness of the response community during an incident or event is dependent on their ability to connect, learn and share in preparedness. The UnderOneRoof conference is a unique event that will address common challenges in the Northeast MN region and beyond. Participation will provide attendees with opportunities to connect with regional preparedness and response partners, learn innovative and effective techniques for future activities, and share lessons learned from recent responses. The conference is guided by these primary objectives: Connect, Learn and Share.

FEATURED KEYNOTES

Joshua Weil, MD - *"Kaiser Hospital Evacuation - the Tubbs Wildfire Experience "*
In the early morning of 9 Oct 2017 the Tubbs wildfire swept 17 miles from Calistoga, CA to within 200 yards of Kaiser Hospital Santa Rosa in only 5 hours. The Tubbs Firs was one of the most destructive in US history, taking out more than 5000 structures, mostly homes. Dr. Weil, an Emergency Physician, was on duty that night and assumed the role of Incident Commander in the hospital as his own home was being consumed and his family was escaping through the flames. When the fire commander announced that they were making "a last stand" the decision was made to evacuate 122 patients from the hospital and Emergency Department. Hear about how the events unfolded and the lessons learned from that night that might help you in planning for your hospital when the unexpected happens.

Lieutenant Colonel Robert J. Darling - *"Crisis Leadership and Decision Making"*
On Sept 11 2001, Lt. Col. Darling was working in the White House Military Office and was tasked to coordinate airlift assets for the President's evacuation to an undisclosed site. However, he was quickly recruited to provide his military expertise and became a liaison between the Vice President, National Security Advisor and the Pentagon. During the next 24 hours he received real time information from numerous government agencies and worked directly with the National Command Authority to respond to the terrorist attacks. Lt. Col. Darling witnessed firsthand the enormity of the crisis leadership decisions that were made that day on behalf of all Americans. This presentation is designed to ensure we, as a nation, never forget the events of 9/11/01, and to inspire all leaders to take the necessary steps within their power to protect and safeguard their employees, their organizations, and their communities.
