

Emergency Services of Barron County Training Announcement

“How to Operate (H2O) in Water Emergencies”

ANNOUNCEMENT

This collaborative training is presented to support all local responders in an effort to enhance patient care and on-scene skill levels. Program partners include Emergency Services of Barron County, MCHS-Barron, Lakeview Medical Center, and Cumberland Hospital.

OVERVIEW

This four (4) hour training is designed for first responders to practice difficult hands-on field scenarios, such as triage in high stress situations, mass casualty incident management, resource allocation & requests, and an advanced knowledge of water-related injuries.

IMPORTANT: This training will have a hands-on practical that will take place in the water. Please bring appropriate attire and a life jacket if you have one. If you have extra life jackets, please contact Andrew Kemp at 715-651-0604.

CLASSROOM PRESENTATION TOPICS

- 1) Cold Injuries
- 2) Cold Trauma
- 3) Drowning
- 4) Water Rescue
- 5) Social Implications
- 6) Triage/Transport

COST

Free to all agencies
